## MEET OMAR.

That split second. It's a millisecond actually. This tiny moment in time when the peak of a special moment is reached. Then it's quickly gone. That's what I pride myself on most. Looking for and capturing these moments. There's nothing better than creating images that show true peak emotion. That's what I do. And LOVE!

## ENJOY. IT'S YOUR SPECIAL DAY.

I want you and your family to live in the moment and enjoy the day. That's why my approach to capturing your special day is to make it as unobtrusive and stress free as possible! I prefer to work with clients that are down-to-earth, cheerful, and just let the day happen as-is.

## SIGNATURE PORTRAIT SHOOT

Capturing your child at this moment has to be done right. Let's face it. Your kid wants to look cool. Most of our sessions are urban portrait or sport shoots. Bottom line? They change so fast. These are the photographs that capture the essence of your child as they are now!

## THE TORAH READING

It's why we are all here! We photograph the rehearsal of the reading. Depending on the temple, we photograph your family with the torah on a Thursday evening or Saturday morning before the actual ceremony.

## I SEE THE LIGHT.

Lighting conditions during your reception change constantly and can be a challenge for inexperienced photographers. Omar uses techniques that capture the room decor colors and ambiance as intended.

The food's eaten, the DJ's packed up...but you'll  
always have your photographs. -Omar
